

## Worlddidac Vision, Mission, and Values 2022

### Vision

We are "Where education comes together". – An international network of passionate individuals who drive and harmonise learning worldwide by inspiring connections, improving methodologies, and furthering technological development. We serve to create value for all in Education.

### Mission

#### **For Product/Service Providers:**

Worlddidac supports its members in increasing their visibility on the international marketplace, leading towards an improvement of their products/scope of offerings, and thereby bringing learning cultures closer together.

#### **For Governing bodies/Funding agencies:**

Providing an ideal matchmaking of potential suppliers toward current projects at hand, as well as co-developing future projects in order to increase efficiency by reducing the research time for adequate partners and simultaneously increasing the variety of possible suppliers, based on the specific project requirements.

#### **For Individuals:**

By incorporating subject matter experts and/or consultants at an early stage, the feasibility of projects is increased and the friction during the implementation phase is reduced. Worlddidac sees its role in bringing these experts to the table right from the start.

### Values

**Neutrality:** We are a neutral intermediary offering unbiased access to ideal solutions from our broad base of diverse international members.

**Holism:** Not only are our members hugely important, but Worlddidac recognizes that it doesn't exist on its own. Rather we are part of a much larger ecosystem and seek to prove a valuable and centralized resource to all in the global realm of education. We are "Where education comes together".

**Quality:** The members of Worlddidac have jointly defined, created and committed themselves to a code of conduct to serve as a quality charter for those seeking education equipment or services on which they can rely.

**Innovation:** Every two years the Worlddidac Foundation organizes the Worlddidac Award and presents it to the most innovative and top-quality products.
