

Dr. Steven McKee is on the governing executive council of World Didac and is the President and founder of Labtech International, which addresses the needs of technology education around the world.

Labtech is one of the largest technical education companies in Asia and is renowned for its educational innovation and has clients in thousands of schools in over 75 countries.

Labtech latest work is at the intersection of digital learning, 21st century skills and Vocational Technical Education.

We believe this has great potential to alter the dynamics and cost of education around the world
