

ISTE Stream Conference

Background

The International Society for Technology in Education (ISTE) is a nonprofit organization that works with the global education community to accelerate the use of technology to solve tough problems and inspire innovation. Our worldwide network believes in the potential technology holds to transform teaching and learning.

ISTE sets a bold vision for education transformation through the ISTE Standards, a framework for students, educators, administrators, coaches and computer science educators to rethink education and create innovative learning environments. ISTE hosts the annual ISTE Conference & Expo, one of the world's most influential edtech events. The organization's professional learning offerings include online courses, professional networks, year-round academies, peer-reviewed journals and other publications. ISTE is also the leading publisher of books focused on technology in education. For more information or to become an ISTE member, visit www.iste.org.

Every year ISTE organizes a strong technology based conference in different cities of the United States. In 2018 ISTE is eager to bring a part of this conference to Worlddidac Bern and hold a one day ISTE Stream on the first day of the Worlddidac Bern show.

When?

November 7th 2018, 10:30 am – 5:30 pm

Where?

Bernexpo, Mingerstrasse 6, 3014 Bern

For whom?

The event will bring together key educators, educational consultants, school deans and teachers from all over the world. Educators will get the opportunity to explore new education tools and strategies in one place. It's a great chance for professional developers to put their hands on the most exciting new technologies from augmented reality to 3D printing, and to learn directly from the pioneers who are innovating the use of these technologies in the classroom.

Aims and objectives:

The conference is aimed at providing a multinational platform where the latest trends in science and technology can be presented and discussed in a friendly environment with the intent on learning from one another. Further objectives include:

- Collaboration with educators from around the world
- Exploring the topics that are revolutionizing education
- Professional exchange between European and American educators

In addition to the above, the event will create an excellent opportunity for networking and establish a sustainable network of international contacts worldwide.

Benefits:

- Meet your peers from all over the world, share what works and what doesn't, and identify synergies and ways of working together to help in your future work
- Meet EdTech Companies
- Get Inspired by international experts
- New and Strengthened Connections
