

WHAT IS CERTIF-ID?

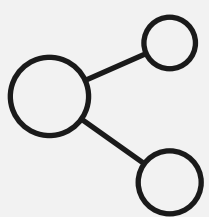

01

A DEDICATED SKILLS COMMUNITY

Certif-ID is a global networking platform. It provides educational institutions, job seekers and recruiters with greater visibility into the education & employment landscape - helping them connect and collaborate efficiently.

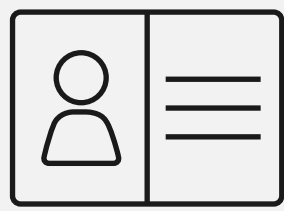

02

USING BLOCKCHAIN-TECHNOLOGY

The networking platform is built on blockchain & is designed to bring in trust & transparency into the education and employment ecosystem. Every transaction is encrypted. So, degrees and course certificates issued on it are traceable and verifiable at any time.

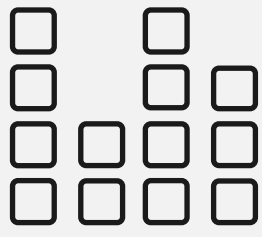

03

POWERING DIGITAL CERTIFICATES

Through Certif-ID, educational and training institutions can provide their graduates with a secure digital space and add their academic credentials or digital certificate to it - minimising the possibility of counterfeit or fake documents.

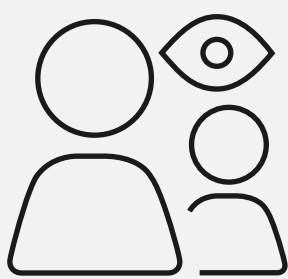

04

FOR EDUCATIONAL INSTITUTES

Educational and training institutions can effortlessly sign up to the platform, create a profile, list courses, manage batches, manage student onboarding and certification issuance processes.

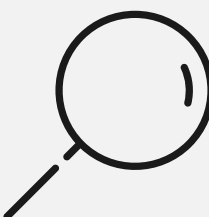

05

FOR EXPERTS / PROFESSIONALS

Individuals can connect with reputed educational institutions to identify and learn new skills. Upon completing a course, experts can directly connect with recruiters, share their digital certificates & explore job opportunities anywhere in the world.

06

FOR RECRUITERS

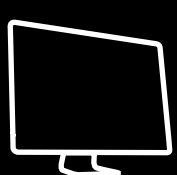

Certif-ID allows employers to search for candidates based on skill/competency. Recruiters can accelerate the hiring process by searching for candidates in a qualified talent pool with verifiable digital certificates.
