

## **Worlddidac General Assembly**

### **President's Report**

### **SDG#4 Quality Education for All**

„A Myth“ or „A Reality“

Dr. Ing. Nader I. Imani, Worlddidac President

## The only constant is CHANGE

Changes in the way we live, work, and interact socially.

The unprecedented health crisis provided Educators with an opportunity to rethink Education with more EdTech and more Pedagogy.

- Would the UN Decade of Action and the Sustainable Development Goals (SDGs) still be considered part of the new normal?
- Would SDG #4, "Quality Education for All," be perceived as a myth or seen as a reality that would be achieved by 2035?

## Sensing the wind of change

Rapidly adapting our operations in a contingency plan.

Adapting nature of our association, while diversifying values offered to our members.

Learning from our perseverance and the richness of our emerging ideas, we increasingly act as the place “where education comes together”.

Resilience in our Governance

In addition to our **General Assembly**, Bi-weekly **Leadership Meetings**, Quarterly **Council meetings**, ... filling the gap between education supply and demand.

**Platinum Member Roundtable**, additional forum, more interaction with and through the association, using Worlddidac as a vehicle to reach more.

Our **Secretariat** in Switzerland and Malaysia, providing support and visibility in the global education arena for more partnership.

## Regionalization

Regional Education demand → **Ambassadors'** appointment towards partnership,  
seizing early opportunities → More Interaction with members

**ADB**, participating in Skills Forum, Worlddidac Resource Center

**Code.org** (US), **Edutech** (FR), **Google** (Europe)

**ADEA** affiliation (Africa)

Joining forces with **UNESCO** Global Education Coalition,  
Global Skills Academy

## Meeting demands

**Onsite and online trade delegation as a new way to meet with educators and education partners.**

Virtual trade delegation to Ecuador

Dual virtual and physical trade delegation to Washington DC, USA

- Education reform under Biden Administration
- Bi- Multilateral Washington based agencies (WB, laDB, MCC, USAID)

Further virtual and physical trade delegations already in planning,  
Provide your key regions and countries

Best value for money to learn about education markets and their demand.

## School without walls

Eduspace® as a **digital Worlddidac portal**

Knowledge and Skills symbiotically bundled

Supporting career-related education pathways

Our discussions with Worlddidac members and non-members will provide us with the basis for ensuring that the programs offered by

Eduspace® targets occupations that are most needed in many countries around the world, e.g. Basic Electrician, Car Mechanics, Machine Operator, Welding Technician, ...

## Acknowledgment

- **Director General and Secretariat**
- **Vice President, Treasurer**
- **President Emeritus**
- **Council members**

“Be active in order to be able to profit” – Our basic efforts are to generate opportunities and added value for the majority. Individual efforts can be accommodated for but, for this, a proactive behavior of members is highly welcomed.

## Let's be ...

Worlddidac is the global organization that helps achieve the **SGD#4**.

Our **global association advocates for Edtech innovations** to make them accessible to everyone, everywhere.

**"Education for All"** not just be a buzzword, but a reality to aim at.

Education is a **Sisyphean task and a never-ending passion!**

## Looking forward

Year 2022, we will be able to continue our collaboration.

All of you and your ingenuity will play an important role in shaping better pledging for investment in education.

Education demand is higher than ever, which makes us confident for our reason to be and continue to advocate for **innovation in education**.
