

We offer globally recognised IGCSE and A-Level qualifications

Experience the British education system to the fullest

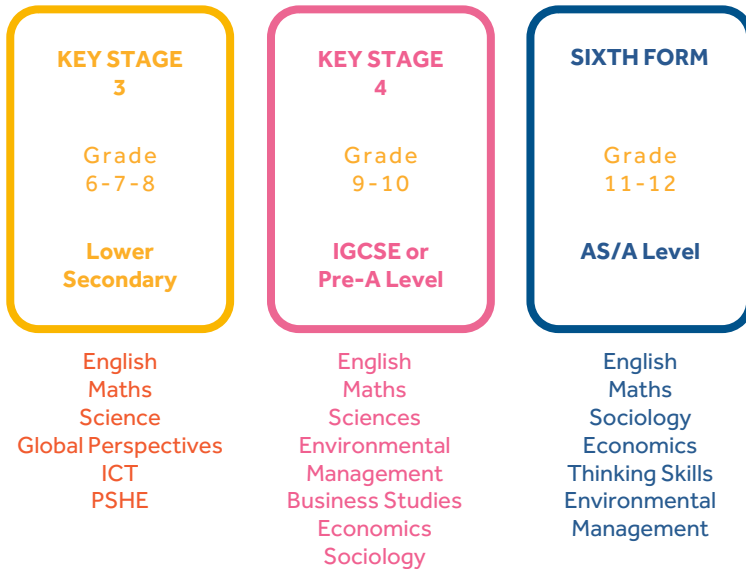

Receive internationally recognised education certificates

Equip students with essential skills and knowledge for an open path to top universities in the world

THE PROGRAMME

International Cambridge Programme

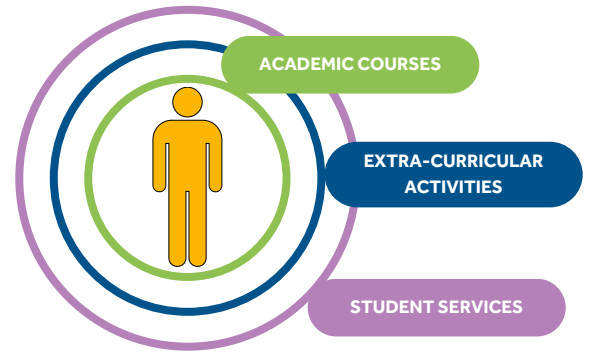

QUALITY ASSURED

Established in 1996 in the United Kingdom, the Nisai Group is the first and leader of online education in the UK.

Nisai retained its status of Inclusive School and Centre of Excellence by the Inclusion Quality Mark in 2023 and is a registered Cambridge International Online School. The curriculum of NGS is taken from Cambridge International specifications and leads to IGCSE, AS and A Levels.

At Nisai Global School, we believe that each student has different educational needs, learns at a different pace, and in their own unique way. The teaching methods are modified for a personalised learning experience for the student. International education trends also show signs of shifting toward personalisation in education.

Complementary programme

Project Based Learning

English CEFR Course

Exchange Study

Extra-curricular programme

The Chill-out Zone: Extracurricular clubs in which students can connect and share their hobbies with other students across the globe.

House System: Students are divided into different houses where they can team up, work together, gain scores while learning and compete with other houses.

Purpose-Driven Project: Where annual social projects are hosted.

Comprehensive care programme

Nisai Virtual Academy (NVA): The educational system used to provide an inclusive and secure teaching environment. The data is encrypted and protected.

Wellbeing Centre: With a focus on developing the whole child, Nisai supports students 24/7 in line with "Every Child Matters".

Student Services: Student Support (CASST) are always ready to listen and acknowledge feedback from students. They provide support and guidance to students when needed. Parents can follow their children's learning outcomes via a customised and personalised portal.

CASST also provides students with career orientation, advising suitable courses and universities as well as supporting them in preparing for admissions into university.
